RightClick

Accelerate Loan IQ Releases with RightClick TMS

Fully integrated with Loan IQ. Start automating from Day 1.
RightClick TMS helps teams move beyond generic frameworks with a dedicated automation platform to build, reuse, and scale tests across the full Loan IQ lifecycle.

No-code test automation solution

Built for both business & IT teams

Scalable automation for Loan IQ

Deliver faster upgrades, reduce release risk, and build confidence through automated testing and continuous validation.

Build reusable Loan IQ tests

Reduce testing effort and improve release quality with reusable automation that supports future upgrades and change.

Accelerate and de-risk Loan IQ upgrades

Validate critical business workflows earlier to reduce disruption, lower risk, and deliver upgrades with confidence.

Extend capacity with managed testing

Scale testing without increasing headcount while maintaining continuous release readiness.

Proven results. Measurable impact.

Automate once and reuse across upgrades, releases, hotfixes, and environments

Proven to reduce testing efforts by up to 70%

- ✓ Fast cost savings
- ✓ Faster, predictable upgrades
- ✓ Higher testing coverage
- ✓ Lower release risk
- ✓ Improved auditability
- ✓ Accelerated time-to-market

Continuous Testing across the Loan IQ lifecycle

UI-Driven Testing

Validate end-to-end business workflows by automating user interactions and applying predefined success criteria.

Interface Testing

Automate interactions between systems and validate upstream/ downstream data flows.

Backend Testing

Create API tests, scripts, and executables to validate services and system functionality.

SIT / UAT Testing

Combine GUI, API, database, report, and script testing to cover full workflows across systems.

Batch & Regression Testing

Run batch jobs and regression suites, compare outputs across versions, and detect true differences quickly.

Continuous Testing & DevOps

Reuse automated test suites across CI/CD, hotfixes, enhancements, and production support to reduce release risk over time.

Why Financial Institutions choose RightClick

With decades' worth of test automation expertise at your service, we deliver cutting-edge automation tools and services. Our team helps companies around the world to build, maintain, and scale automated testing for their mission-critical software.
